# CLASSIC-CRAFT® AMERICAN STYLE COLLECTION™

## SHAKER-STYLE DOORS

(107.95 mm / 4.25 in.)

(139.70 mm / 5.50 in.)

### PREMIUM FLAT PROFILE DIVIDER BARS

- Made of the same material as the door surface for a consistent wood-grained texture and finish, and a high-end look that won't warp, rot or absorb moisture.
- Available in 4-¼" and 5-½" widths to simulate the look of real wood.
  - Simply trim the pre-cut bars for the best fit.
  - 86" lineals are also available for vertical applications and can be custom cut to create a variety of looks.

## TRU-ADVANTAGES

Versatile options to fit entrances around the home.

- Includes options for 3'0" x 6'8" and 3'0" x 8'0" doors.
- Full-lite EnLiten™ flush-glazed doors are ideal for front and side entry, as well as patio applications, and can be paired with full-lite sidelites.
- Opaque door styles can also be paired with full-lite sidelites for natural light in the front entry.
- Flat profile divider bars extend a simple, relaxed look throughout the home to side and back doors while complementing interior design elements, such as interior doors, kitchen cabinets and bathroom vanities.

## TRU-ADVANTAGES

Meet market needs and differentiate your business with customized options.

- Broadens the appeal of the Classic-Craft® American Style Collection™ with new options to fit a variety of architectural styles, including High-Fashion Farmhouse, Simple Barn and more.
- Create a wide variety of casual looks to complement the interior and exterior of homes by applying premium flat profile divider bars to the 1-panel opaque doors, as well as full-lite flush-glazed doors.

# TRU-ADVANTAGES

Backed by an industry-leading lifetime limited warranty. Full-lite Classic-Craft® American Style Collection™ doors are also backed by warranty riders for added peace of mind.

## **EnLiten™ Flush-Glazed Rider for Construction & Installation**

Provides protection in case of accidental glass breakage during residential and multi-family construction or installation. Therma-Tru will replace the flush-glazed fiberglass door or sidelite.

## **EnLiten™ Flush-Glazed Rider for Homeowners**

Provides protection in case of glass-related failures due to manufacturer defect. Therma-Tru will furnish \$300 toward installation and replace the EnLiten™ flush-glazed fiberglass door or sidelite.

# **SATIN ETCH PRIVACY & TEXTURED GLASS**

## **FOR CLASSIC-CRAFT® PREMIUM ENTRYWAYS**

# SATIN ETCH PRIVACY & TEXTURED GLASS FOR CLASSIC-CRAFT® PREMIUM ENTRYWAYS

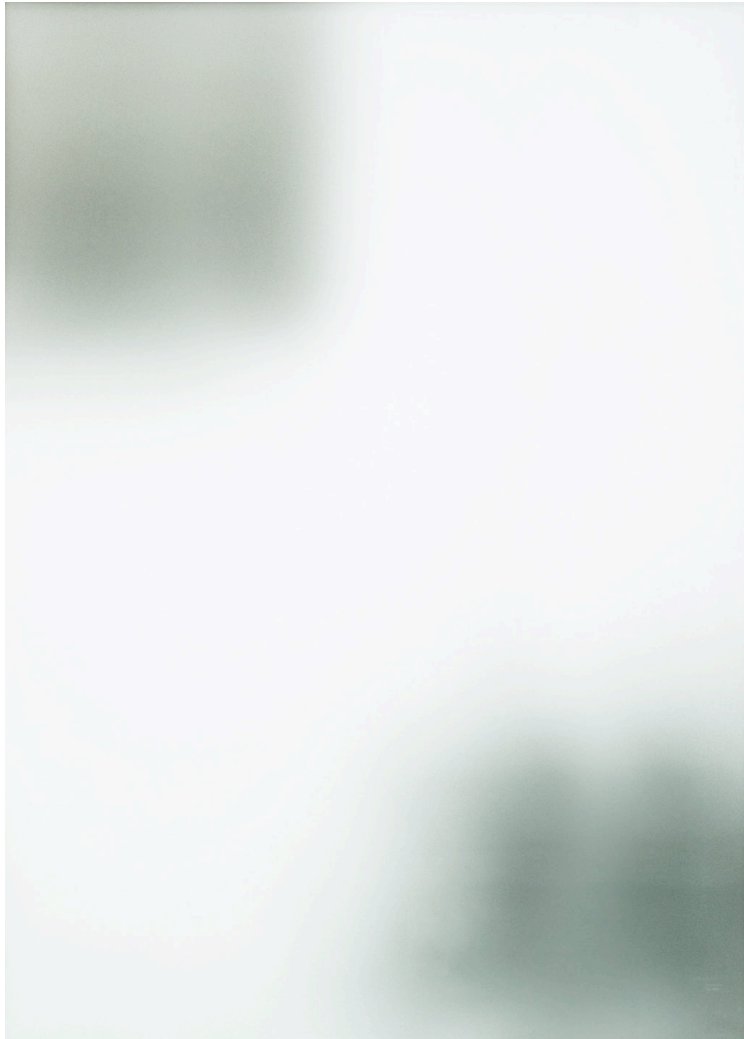

## TRU-ADVANTAGES

- Delivers another privacy and textured glass option within the Classic-Craft® portfolio.
- Features a fine-textured pearlescent glass that delivers a pure, simple design aesthetic.
- Provides ultimate privacy while allowing light to illuminate the entrance.
- Creates a soft, translucent look with on-trend appeal that can command higher margins.

# SATIN ETCH PRIVACY & TEXTURED GLASS FOR CLASSIC-CRAFT® PREMIUM ENTRYWAYS

## PRODUCT HIGHLIGHTS

A fine-textured, soft and shimmering glass that offers extraordinary style.

## TRU-ADVANTAGES

Broadens the appeal of the Classic-Craft portfolio with another privacy and textured glass option.

- Meets consumer demand for a simple and sleek design ideal for a wide range of home styles with a modern or contemporary twist, including Mid-Century Modern, Simple Barn, High-Fashion Farmhouse and more.
- Available in EnLiten™ flush-glazed designs which feature a simple profile with no added embellishments around the glass.
- Also available in 1/2-lite door styles with Lip-lite frames.

# TRU-ADVANTAGES

Backed by an industry-leading lifetime limited warranty, plus warranty riders for peace of mind.

- **EnLiten™ Flush-Glazed Rider for Construction & Installation**

Provides protection in case of accidental glass breakage during residential and multi-family construction or installation. Therma-Tru will replace the EnLiten flush-glazed fiberglass door or sidelite.

- **EnLiten™ Flush-Glazed Rider for Homeowners**

Provides protection in case of glass-related failures due to manufacturer defect. Therma-Tru will furnish \$300 toward installation and replace the EnLiten flush-glazed fiberglass door or sidelite.

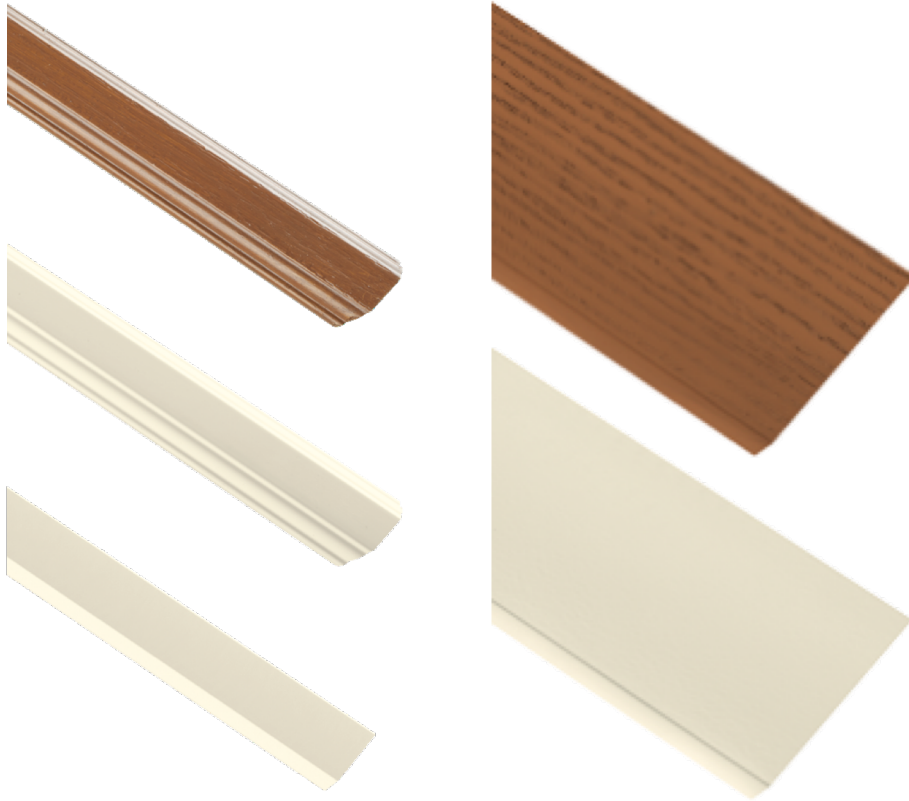

**NEW SIMULATED DIVIDED LITES**

# FLUSH-GLAZED INTERNAL BLINDS FOR SMOOTH-STAR® DOORS

## TRU-ADVANTAGES

- An ideal solution for virtually any entry, including patio, side and back doors, allowing optimal daylight and outdoor views or on-demand privacy.
- Complements trends toward simplistic design elements throughout the home.
  - Internal blinds feature a cordless design for a clean and simple aesthetic.
  - Features a Shaker-style sticking profile with no added embellishments around the glass. See the difference in the image below.

Flush-Glazed Glass

Lip-Lite Frame

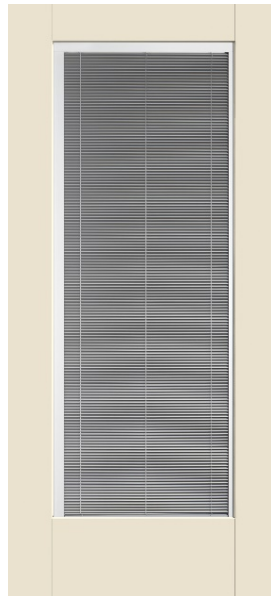

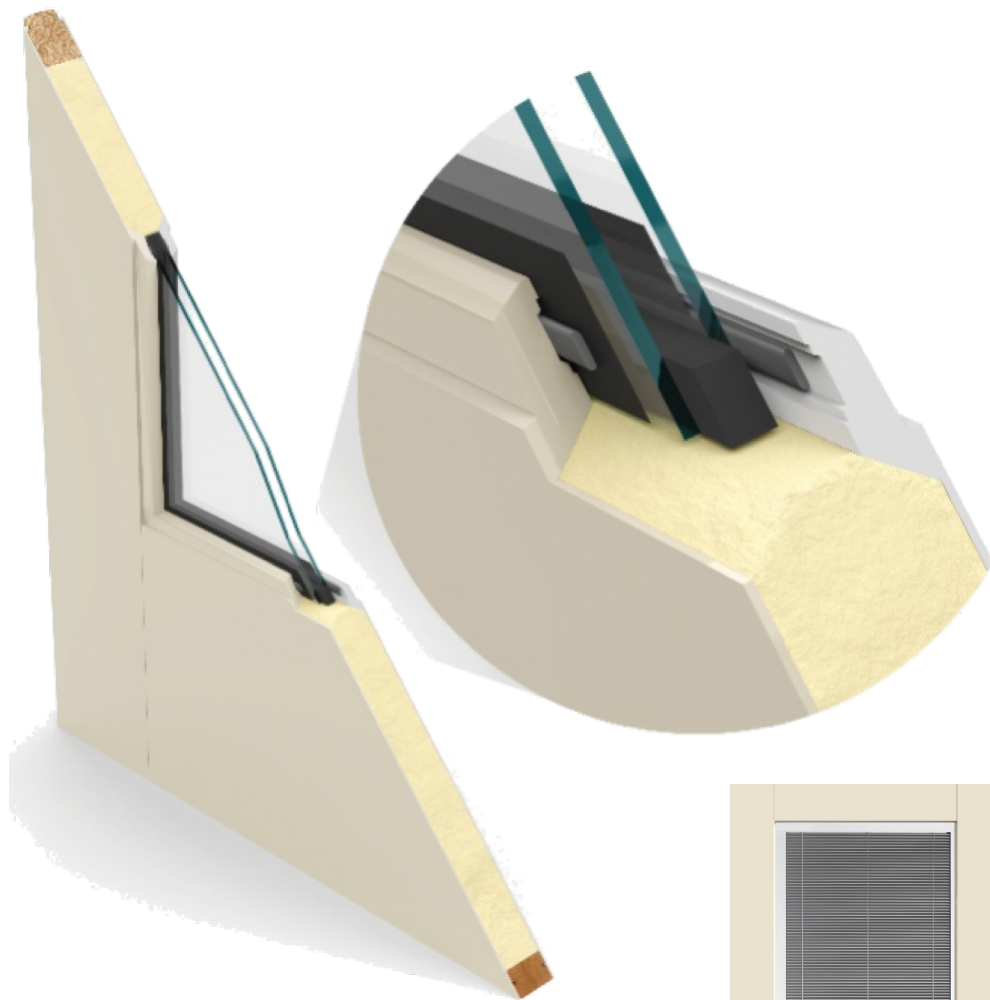

# FLUSH-GLAZED INTERNAL BLINDS

## TRU-ADVANTAGES

Simple and durable option to control natural light and privacy with the simplicity of a single handle.

- Protected between two panes of Tempered glass for enhanced safety and performance, blinds remain dust free, and glass is easier to clean than traditional blinds.
- Cordless design for a kid- and pet-friendly solution.

## TRU-ADVANTAGES

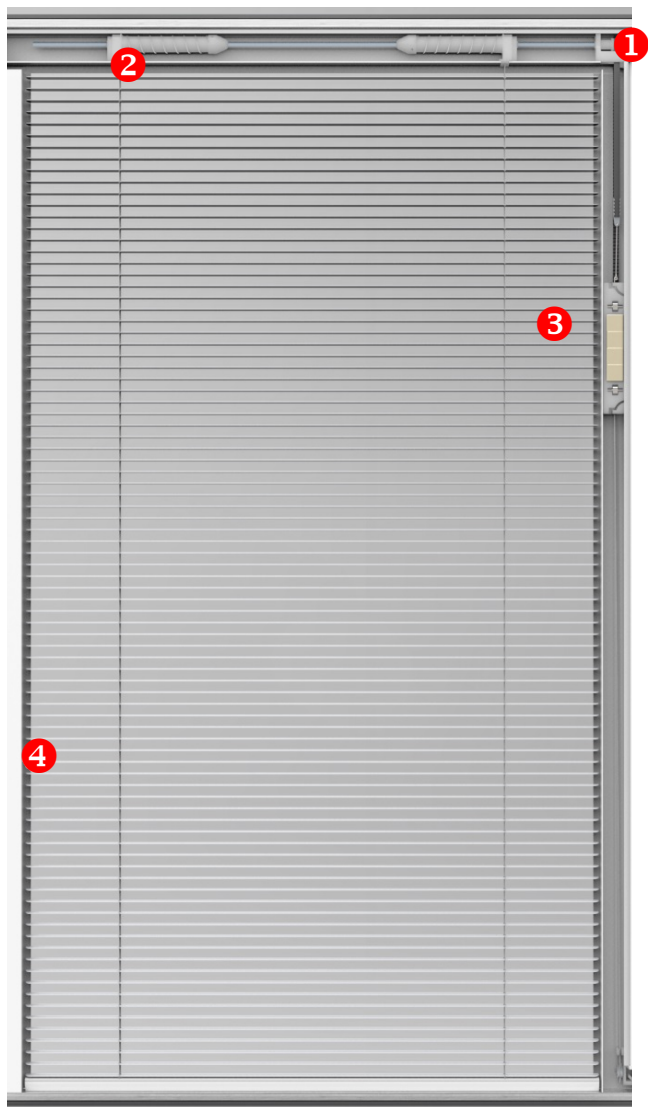

Simplifies and improves efficiency within your business, ensuring a high-quality product for customer satisfaction.

- Reduces production time by eliminating the need to cut out the door slab, take apart the lite frame, finish the lite frame and screw plugs, then assemble the door.
- Eliminates the risk of glass being installed incorrectly into the door, as well as the need for lite frames and screw plugs, because glass is built directly into the door during the manufacturing process.
- Delivers inventory flexibility with non-handed 6'8" doors that can be machined on either side for lock and hinge.

# FLUSH-GLAZED INTERNAL BLINDS

## FOR SMOOTH-STAR® DOORS

### Design & Functionality

#### 1 Gear Pulley Operating System

- Provides smooth range of motion when opening, closing, raising and lowering blinds.

#### 2 Cord-Winding Devices

- Allow strings to spool evenly without overlapping, which helps prevent uneven blinds.

#### 3 Single-Hand Operator

- Offers the convenience of opening, closing, raising and lowering the blinds with a single handle.

#### 4 Privacy Bar

- Eliminates the visible space between the end of the blind slats and the edge of the glass.

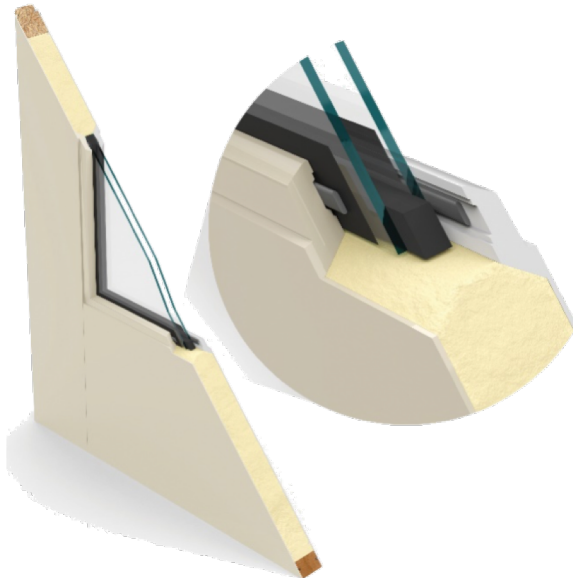

# FLUSH-GLAZED INTERNAL BLINDS

## FOR SMOOTH-STAR® DOORS

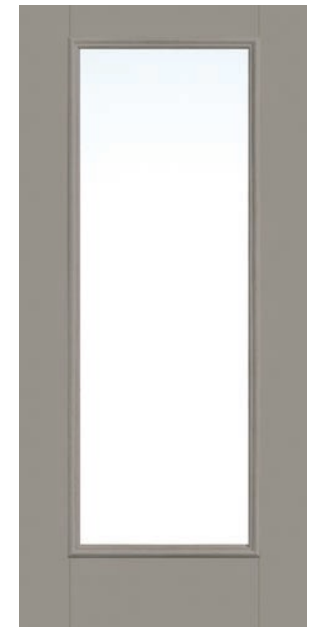

### TRU-ADVANTAGES

Flush-glazed construction improves efficiency in finishing, helping you save time and money.

- Features a smooth profiled edge around the glass for greater ease in painting.
- Black tape along with the construction of the internal blinds IG blocks all visible paint weep.
- EnLiten™ flush-glazed designs offer up to a 16% increase in visible glass area when compared to conventional lite frames.

Flush-Glazed Glass

Lip-Lite Frame

# ENLITEN™ FLUSH-GLAZED DESIGNS

## TRU-ADVANTAGES

### Designs for any style.

- EnLiten flush-glazed designs create striking profiles that effortlessly combine indoor and outdoor living spaces, inviting in more natural light than ever.

### Create a clean look.

- During manufacturing, glass is built directly into the door.

### Strength is built-in.

- Durable by design, flush-glazed glass represent a trouble-free solution that provides a superior barrier against the elements, resulting in performance you can depend on.

# FLUSH-GLAZED INTERNAL BLINDS FOR SMOOTH-STAR® DOORS

EnLiten™ flush-glazed designs are backed by the industry's most comprehensive lifetime limited warranty, plus warranty riders for peace of mind – all from the entry door brand building professionals choose most.\*

ENERGY STAR®  
Qualified Options

WBDR / HVHZ  
Options\*\*

\*Included in the limited warranty when installed in a Therma-Tru fiberglass or steel door system.

\*\*Product approvals show that the door system meets applicable codes when selected, assembled and installed as instructed.

Note: See your Therma-Tru seller or visit [www.thermatru.com](http://www.thermatru.com) for details on available product sizes and options, limited warranties and exclusions and ENERGY STAR qualified products.

# IMPACT-RATED INTERNAL BLINDS

## Design and functionality.

- **Gear Pulley Operating System**  
Provides smooth range of motion when operating blinds.
- **Two Cord-Winding Devices**  
Allow strings to spool evenly without overlapping, which helps prevent uneven blinds.
- **Single-Hand Operator**  
Offers the convenience of opening, closing and tilting with a single handle.
- **Privacy Bar**  
Eliminates the visible space between the end of the blind slats and the edge of the glass.

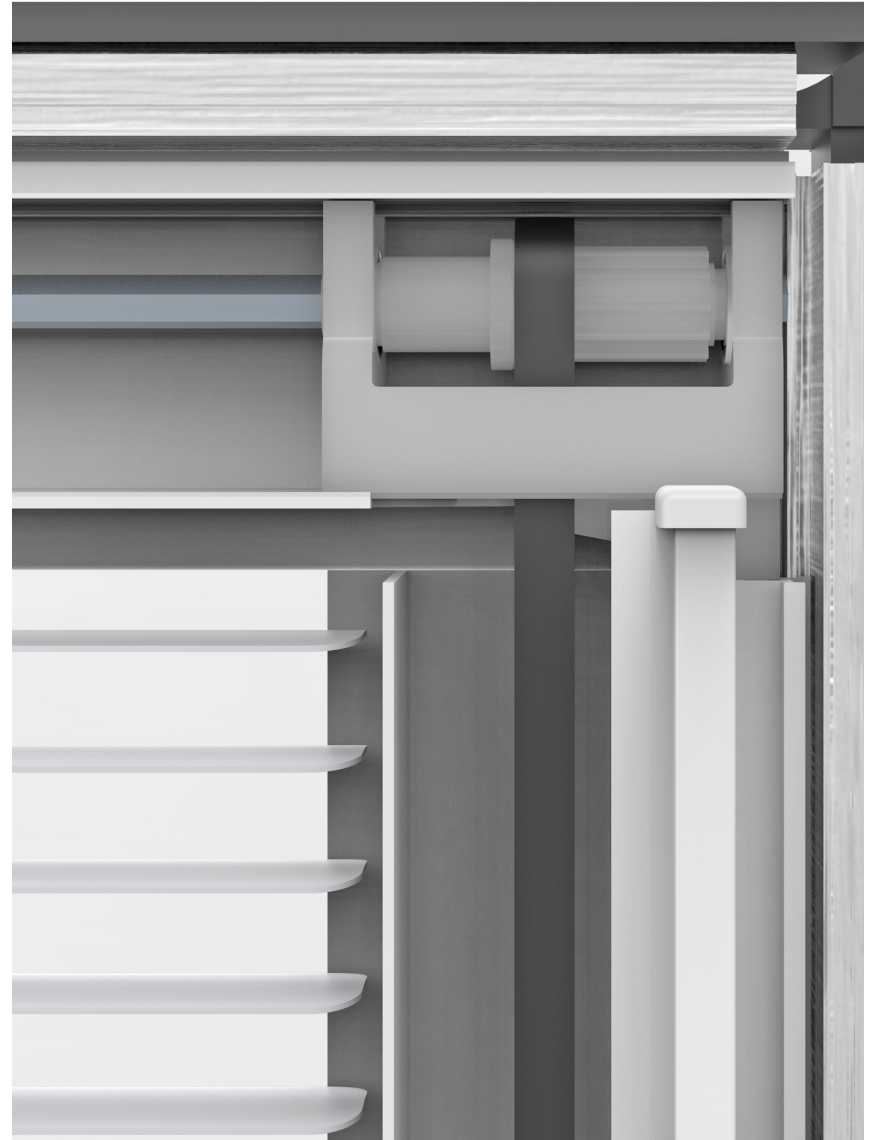

# IMPACT-RATED INTERNAL BLINDS

- **Ball Bearings**

Located on the gear pulley operating system help to reduce wear on pulley strings, as well as help to reduce string breakage.

- **Cog Belt**

Provides a smooth range of motion and ease of travel, making the blinds easier to open, close and tilt.

# IMPACT-RATED INTERNAL BLINDS

- **Cord-Winding Device**  
The length and slightly tapered design of the cord-winding device allows the strings to spool evenly without overlapping, which helps prevent uneven blinds.
- **Equal Length Strings**  
Equal length strings on the blind slats help to reduce the occurrence of uneven blinds. If the blinds become uneven, moving the handle up and down the track one cycle easily adjusts the blinds back to a level position.

# IMPACT-RATED INTERNAL BLINDS

- **Four Magnets**

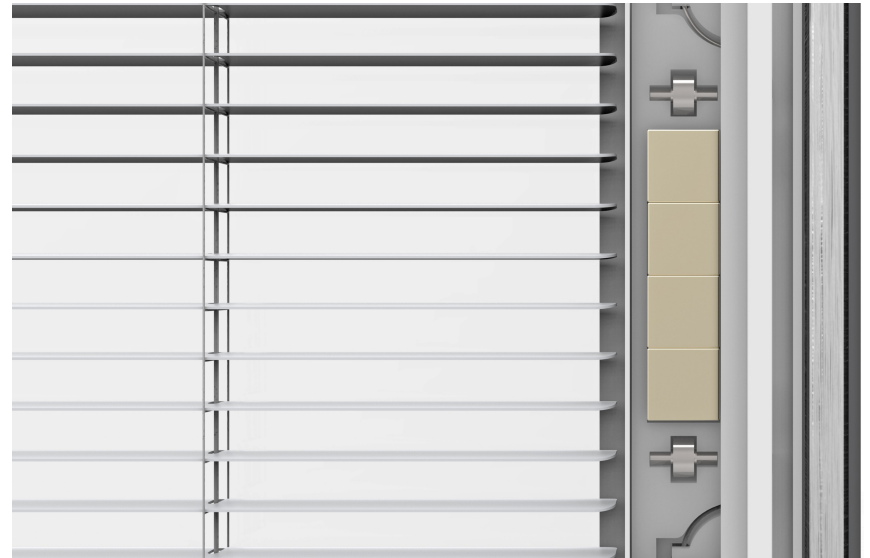

Provide a strong connection to help deliver a smooth range of motion. Four magnets help enhance the strength in connecting the handle to the unit, reducing the likelihood of the handle becoming disengaged.

- **Navigation Track**

A stopping mechanism has been engineered into the design to help prevent the handle from coming off the top or bottom of the track.

- **Single-Hand Operator**

Open, close and tilt blinds with the convenience of a single handle. Ergonomic design for easy gripping and use.

# IMPACT-RATED INTERNAL BLINDS

- **Privacy Bar**  
Located along both vertical sides of the blinds, covers the gap between the ends of the slats and the edge of the unit to eliminate visibility into or out of the home. The privacy bar provides added light control and privacy, as well as reduces sun glare into the home.

# IMPACT-RATED INTERNAL BLINDS

## TRU-ADVANTAGES

- Enjoy the privacy and convenience of a cordless blind enclosed between glass, now available in Impact-rated options for every opening around the home.
- Features a special laminated glass construction and a durable, paintable Impact lite frame.
- The flat profile Impact-rated lite frame is exclusive to door and sidelites featuring Impact-rated internal blinds.
- An aesthetic cover on the lite frame provides an uninterrupted design.

# IMPACT-RATED INTERNAL BLINDS

## TRU-ADVANTAGES

- Versatile product for broad appeal.
  - Available for both wood-grained, stainable and smooth, paintable doors and sidelites.
  - Ideal for use in areas of the home where controllable privacy is desired, including the back door and patio.
- Impact internal blinds offer a simple look that's the perfect complement to any home's architectural style, from Traditional to Modern.
- Pre-finish with PrismaGuard to ensure the beauty of the door for years to come, with the added benefit of a 10-year finish warranty.

# IMPACT-RATED INTERNAL BLINDS

## TRU-ADVANTAGES

- Impact-rated internal blinds can be used to meet high-wind and coastal region codes and regulations, offering excellent performance in extreme weather conditions while providing added protection. Always confirm building code requirements in your area before buying.\*
- Constructed to help protect the interior of the home from flying debris and high winds associated with tropical storms and hurricanes.
- Look up details on regional product approvals here:  
<https://www.thermatru.com/professionals/technical-information/building-codes/>
- Note: The flat profile lite frame is not interchangeable with Therma-Tru's other Impact lite frames and is not recommended for use in a unit that features doors and sidelites with a scrolled lite frame.

\*Product approvals show that the door system meets applicable codes when selected, assembled and installed as instructed.

Note: See your Therma-Tru seller or visit [www.thermatru.com](http://www.thermatru.com) for product approvals and installation instructions. Always confirm builder code requirements in your area before buying. Follow weather and news reports to assess severe weather situations and obey local authorities' shelter and evacuation orders. No product guarantees safety for persons or property, nor makes any premises hurricane- or impact-proof.

# TRU-ADVANTAGES

- Add a beautiful, finished look to any entryway with new Therma-Tru door surrounds. Part of Therma-Tru's complete door system, door surrounds help tie the front entryway in with the rest of the home's architectural details, creating a cohesive look with enhanced curb appeal.
- Discover a hand-selected assortment chosen to complement virtually any door style – from Traditional to Modern.
- Therma-Tru door surrounds are the perfect add-on for homeowners looking to upgrade their entryway and enhance their home's curb appeal.

# TRU-ADVANTAGES

- Therma-Tru door surrounds are low maintenance and deliver long-lasting performance.
- The durable polyurethane construction resists moisture and insects, and won't rot, warp, crack or split like wood.
- Therma-Tru door surrounds come primed, and can be stained or painted to complement a home's architectural details.

# TRU-ADVANTAGES

- Crafted from lightweight polyurethane, Therma-Tru door surrounds take one-third of the completion time of traditional wood or PVC door surrounds.
- All door surrounds come ready to install, and parts can be trimmed to exact measurements in the field.
- Door surrounds are part of the complete Therma-Tru door system, enabling you to experience the convenience of having one supplier for all of your door products.
- A minimal, but versatile, selection of SKUs is available to coordinate with a wide range of configurations and door styles.

# TRU-ADVANTAGES

- Our complete Door Surround Kit includes everything needed for fast and easy installation.
- Kit contents: crosshead, pilasters and/or trim, and keystone or end caps (select styles).
- Parts can be trimmed to accommodate exact width and height needed.
